

SYMBOL: RM04

Description

Sports muffler with a straight through construction. A simple, damage-resistant design allows the use of a silencer in motorsport. The silencer uses the highest quality soundproofing in the form of steel wool resistant to 800 °C and glass wool resistant to 800 °C. The muffler is hand finished and undergoes strict quality control. Entirely made of acid-resistant steel (T304, X5CrNi18-10, 1.4301, AISI 304, 0H18N9). The product has a 24-month manufacturer's warranty.

Additional information:

Sport straightthrough silencer made of acid-resistant steel

Can length - 300, 400, 480 mm

Can diameter - 88.9 mm

Inlet / passage diameter - 50, 57, 63.5 mm
